

Relay Therapeutics to Participate in Two Upcoming Investor Conferences in June

May 27, 2026

CAMBRIDGE, Mass., May 27, 2026 (GLOBE NEWSWIRE) -- [Relay Therapeutics, Inc.](https://ir.relaytx.com) (Nasdaq: RLAY), a clinical-stage, small molecule precision medicine company developing potentially life-changing therapies for patients living with cancer and genetic disease, today announced that management will participate in two upcoming fireside chats in June:

- 2026 Jefferies Global Healthcare Conference on Wednesday, June 3, 2026 at 12:45 p.m. ET
- Goldman Sachs 47th Annual Global Healthcare Conference on Monday, June 8, 2026 at 8:40 a.m. ET

The fireside chats will be webcast live and may be accessed through Relay Therapeutics' website under Events in the News & Events section through the following link: <https://ir.relaytx.com/news-events/events-presentations>. An archived replay of the webcast will be available for up to 30 days following the event.

About Relay Therapeutics

Relay Therapeutics (Nasdaq: RLAY) is a clinical-stage, small molecule precision medicine company developing potentially life-changing therapies for patients living with cancer and genetic disease. Relay Therapeutics' Dynamo® platform integrates an array of leading-edge computational and experimental approaches designed to drug protein targets that have previously been intractable or inadequately addressed. The company's lead clinical asset, zovogalisib, is the first pan-mutant selective PI3K α inhibitor to enter clinical development and is currently in a Phase 3 clinical trial (ReDiscover-2) in HR+/HER2- metastatic breast cancer. Zovogalisib is also being investigated in a group of genetic disease indications called PI3K α -driven vascular anomalies. Relay Therapeutics' pipeline also includes programs for NRAS-driven solid tumors and Fabry disease. For more information, please visit www.relaytx.com or [follow us on LinkedIn](#).
